

Tropical Woods

Amisco[®]

Tropical

Patten & Punch

Amtico's design team were inspired by some rare and amazing species for Amtico Tropical Woods. Capturing the essence of each one as closely as possible, Amtico's attraction to pattern, highly-figured woods and our desire to respect and sustain the wonders of nature contributed to these unique designs.

W757 Tigerwood

Amtico Tigerwood has dramatically contrasting golden patterning and an exotic allure. It is the perfect partner for the jewel tones, metals and silks of our modern take on eastern style.

W765 Caramel Bamboo

Amtico Caramel Bamboo retains the lovely linear grain but has a more sophisticated butterscotch tone that will create a calm, contemporary space.

W758 Brazilian Rosewood

Amtico Brazilian Rosewood perfectly captures the chocolatey good looks of the original. It provides the perfect partner for today's luxury materials and darker schemes.

W759 Merbau

Amtico Merbau's warm red tones and unique flecked grain gives an exotic finish to complement many different kinds of interior styles.

Standard Sizes

4.5" x 36" (114mm x 915mm) and 6" x 36" (152mm x 915mm)
