

## Durodisc LS/HS single-brush machine

### High cleaning power with little effort

Carry out the basic, intermediate and maintenance cleaning of small and medium-sized surfaces with minimal effort, quickly and effectively, with the Durodisc single-brush machine. The low ground clearance facilitates cleaning right up to the edge. Clean floors with varying properties and even textile floor coverings with ease.

Thanks to the infinitely adjustable upright handle, the machine can be swiftly adapted to the height of the respective operator. The optional accessories are easy to attach and detach too.

#### Highly versatile: a brilliant finish on all floors

The Durodisc can be used everywhere and cleans even heavily soiled floors in a flash. Optionally, the Durodisc can be equipped with a 14-litre water tank or a spray device, or if required, with a suction unit.

#### Sturdy design: fit for tough cleaning jobs

Its solid construction makes the Durodisc a durable all-round machine for all conceivable cleaning conditions. The sturdy design guarantees a long service life and reduces maintenance costs to a minimum.

#### Two versions: the choice is yours

Cover all your applications with only two machines. The Durodisc is available in two versions: In the **LS (Low Speed) version with 160 revolutions** per minute, especially for basic, intermediate and maintenance cleaning. In the **HS (High Speed) version with 410 revolutions** per minute, especially for polishing and spray cleaning. What they both have in common is a powerful, long-lasting motor that does not need any maintenance.

#### Ergonomic concept: making work fun

The Durodisc has a belt drive for quiet and vibration-free operation. The optimum weight distribution combined with the individual height adjustment of the upright handle enables ergonomic, light and easy manoeuvring. The accessories are ergonomically designed too.

# The Durodisc LS and HS: as versatile as your cleaning requirements

- Simple, reliable universal single-brush machine
- Suitable for all floor coverings
- Ergonomic concept for fatigue-free working conditions
- Carpet pad method for quick stain removal
- Can be fitted with spray device/water tank
- Up to 40 kg total weight possible with additional weights

## Good to know – User advice

### Basic cleaning

#### (Wet/dry scrubbing):

Heavy soiling and worn protective films are effortlessly removed.

### Maintenance cleaning

#### (spray cleaning):

With spray device for efficient removal of dirt and walking tracks.

### Intermediate cleaning

#### (carpet pad method):

For stubborn stain removal, with the following advantage: the carpet is immediately safe to walk on again.
