

Wetrok AG

Masslinn Yellow

Summary of test results

- effectively removes fine dirt particles from smooth floors
 - ▶ 97% dirt removal rate with difficult laboratory conditions
- significantly higher germ reduction than with wet mopping only
 - ▶ germ reduction achieved in field test: 84.90%
- improves the results of subsequent wet cleaning and disinfection steps
- excellent gliding behaviour for ergonomic mopping
- highly recommended for the dust-binding mopping of smooth floors
